

STANDARD RANGE

16 mm PMMA collimator – LLC22

May, 2025

LLC22: presentation

Given the current increasing demand on small optics,
GAGGIONE launched a $\varnothing 16$ mm collimators range.

Achieving an optimal focus position of the lens is the key factor for a successful LED/Collimator integration.

Different holder references are available to position collimators to considered LED.

The correct position is achieved when the PCB to LES distance from the LED datasheet is equal or close to the PCB to LES distance of the holder.

If you need assistance to choose the right holder, please [contact us](#).
